Grand Rapids Historic & Special Collections

**Robinson Photographic Studio Collection (125)
Color Series.
List of Folder Headings, Alphabetically**

Note: This is one of many finding aids for the very large Robinson Studio Collection.

The Color Negative Series (CL) is one of the small series in the collection, and includes images taken from 1951-1988.

Generally, the headings are in alphabetical order, with the heading usually indicating the client who hired the images to be taken. However, there is a section of additional headings at the end of this alphabetic list, which may have been found late during processing, and are not in any consistent order. Use keyword searching within the document to search for relevant entries.

For several of the series of the Robinson Studio Collection (H, E, O, R, and CH), there is a database mounted on the Web which provides set level description of the images.

There is a separate list of heading for the Robinson Commercial Series (C Negatives), and this separate list of headings for the Color Negative Series (CL Negatives). The Commercial and Color series negatives are not included in the online searchable database. The Commercial Series is about three times the size of all of the series in the searchable database combined.

For additional information and assistance, contact the Local History staff for assistance.
